3. Changing these Customer Terms, Price Lists and Internet Services

3.1. Change in Customer Terms: Lightwire reserves the right to amend these Customer Terms at any time. If Lightwire amends these Customer Terms, it will endeavour to provide a minimum of 10 Working Days’ notice and, wherever possible, at least one month notice of these changes. Lightwire reserves the right to change these Customer Terms without notice if Lightwire is required by law to do so or where that change is necessary for security reasons, to prevent fraud or for technical reasons. It will be the Customers responsibility to visit the Website to obtain a copy of the amended Customer Terms. Continued use of the Internet Services after these changes have been notified to the Customer will constitute acceptance of the amended terms by the Customer. These terms will then form part of the Customer Terms agreed between Lightwire and the Customer.

3.2. **Change in Price List:** These Customer Terms incorporate Lightwire’s current applicable price list. The price list may change from time to time. Where the price of the Internet Services increase, Lightwire will notify the Customer at least 10 Working Days prior to the increase and where possible with one month’s notice. Lightwire will tell the Customer about any such alterations by emailing or writing to the Customer and by publishing the change on the Website.

4. Lightwire’s Obligations

4.1. Whenever Lightwire provides Internet Services for the Customer, Lightwire will:

- a) use its best efforts to provide the Customer with a consistently reliable and good quality Internet Service once the Customer is connected to the Network;
- b) use its best efforts to reinstate the Internet Services when the Customers connection is disrupted within a reasonable timeframe;
- c) supply the Internet Services through the Network to the Customer in a way that Lightwire believes is the most appropriate form for the Customers connection;
- d) choose the carriers and suppliers used to provide the Internet Services (which Lightwire may change at its sole discretion); and
- e) advise the Customer how to access the Network (this may change from time to time at Lightwire’s sole discretion).

4.2. Lightwire does not represent, warrant or guarantee that the Internet Services will be:

- a) interruption or fault free, or that any faults or errors will be able to be corrected;
- b) available at any particular time or location;
- c) available, or available without change, for any minimum period of time;
- d) secure or private; and/or
- e) free of viruses or other harmful features.

5. Payment and Billing

5.1. The Customer must pay for all goods and services (including the Internet Services) that Lightwire provides to the Customer’s address or for the Customer’s use (no matter who uses the Internet Services).

5.2. Lightwire will send the Customer bills for the charges. The Customer must pay each account by the due date for payment as set out in the bill.

5.3. If the Customer fails to pay any monies on the due date, Lightwire may:

- a) charge a late payment fee of \$15 + GST on all overdue accounts.
- b) require the Customer to pay any costs that are incurred by Lightwire (including agents) in recovering the money owed, or

in exercising any other rights, including commissions, credit collection and legal costs on a solicitor and client basis; and/or

- c) discontinue the provision of the Internet Services and/or refuse to provide any further Internet Services to the Customer (Lightwire will notify the Customer at least 5 Working Days before it will disconnect the Internet Service for non-payment).

- 5.4. The Customer must notify Lightwire immediately if the Customer disputes any charges. The Customer must provide Lightwire with details of the reasons for the dispute, details of the charges and evidence of the grounds for the dispute. The dispute must be raised before the due date of the bill. Any claim outside of this time frame may not be recognised (at Lightwire's sole discretion). Payment for the undisputed charges must be made by the due date for payment. The Customer must not set-off or deduct any amount to be paid in respect of the bill in any other circumstances.
- 5.5. If Lightwire agree there is a mistake, Lightwire will adjust the Customer's next bill or, if appropriate provide a refund. If Lightwire find there is no mistake, and if the due date for payment has already passed, the Customer must pay the amount outstanding within five Working Days.

- 5.7. Lightwire will only accept Credit Cards and Direct Debit Authorities as methods of payment. From time to time at Lightwire's sole discretion Lightwire may accept other methods of payment.
- 5.8. Lightwire will begin charging for a service once we deem service to have been given (based on the requested RFS date) regardless of whether the end client has actively started utilising the service.
- 5.9. If multiple services are being provisioned as part of WAN, billing will commence for each individual service component as they go live.
- 5.10. Early termination charges (ETCs) will apply if a service is cancelled by the customer prior to the contracted end date.
- 5.11. If the customer wishes to disconnect, their connection will be disconnected on the last day of the month in which the request is received. If the active Lightwire customer wants to disconnect before the end of their minimum term, then the contract will be considered to be broken and an early termination fee (ETC) will apply. ETC calculation is as follows:

Monthly fixed charge multiplied by full months left in term, with a maximum charge of \$790 incl. GST applying.

The early termination fees exist to help us to recover the setup costs we incur from installing a connection at your property. If the customer signs up to a plan, but the installation is not successful, no early termination fees apply.

6. Billing Policy

- 6.1. All Lightwire recurring services will be invoiced monthly in advance.

8. Acceptable Use Policy

- 8.1. This section gets pretty wordy, with a lot of effort put in by the legal team to ensure that all bases are covered, but the key theme behind all of the following conditions is that rural wireless is a unique beast, with a lot of complex elements in play. Lightwire's Acceptable Use Policy (AUP) is designed to ensure that the Network is used equitably by all users to create an online

community where all users enjoy a high-quality Internet Service.

We need to ensure that users on unlimited plans do not impact the experience of other users connecting to the same high site (tower), but there is no set rule as to what level of usage will create an issue. Each tower has different capacity available to it, so we all need to work together to get the balance right. Lightwire will always tread carefully and talk through any issues related to our AUP with customers, giving plenty of opportunity for usage patterns to be adjusted before we take any binary action (suspension of a service for example).

The AUP sets out obligations and restrictions for users while they are using Lightwire's Internet Service. Lightwire reserves the right to limit and/or suspend its Internet Service to Customers who breach the AUP. Customers will remain legally responsible for their actions when using Lightwire's Internet Service and Customers will indemnify Lightwire for any loss incurred by Lightwire or any third party (or other users) due to the Customer's action.

8.2. AUP obligations and restrictions:

- a) Customers will ensure that their Network usage does not adversely impact on Lightwire's ability to provide Internet Services to other Customers and the ability of other Customers to access and use the network.
- b) Customers will not flood Lightwire's Network, launch denial of Internet Service attacks, overload an Internet Service or impair Lightwire's ability to provide an Internet Service.
- c) Lightwire reserves the right to use network management tools to ensure that all users have equitable access and network usage rights. Lightwire also reserves the right to limit and/or suspend its Internet Service to Customers who misuse their Network usage obligations. Lightwire may also terminate Users' sessions if they have been continuously online for a considerable period of time.
- d) Customers will take all practicable steps to ensure that they do not transmit, receive or view objectionable, illegal, defamatory or restricted content. Lightwire acknowledges that some content may be restricted to adults over 18 years of age. It is the Users' responsibility to ensure that such content is not available to minors and others entities that it was not intended for.
- e) Customers will not attempt to gain unauthorised access to any other computers, networks, electronic storage/retrieval systems, or any other communications equipment on Lightwire's Network or any other network.
- f) Customers will not modify, alter, delete or edit content unless they either have explicit written authority or consent to do so or the content belongs to them.
- g) Customers will not transmit or post viruses and other harmful code over the Lightwire Network.
- h) Users will not send spam, junk email or any other unsolicited material over the Lightwire Network. Please note that sending viruses, spam and other junk email may be illegal under New Zealand Law. It is the Customers' responsibility to secure their usernames and passwords. Customers will also be responsible for their own identity and password security by organising their own antivirus, spam or junk email filter, firewalls and pop up blockers.
- i) Customers will not distribute, download or transmit password guessing programs, unauthorised keystroke loggers, password gatherers, cracking tools, Trojan horses, spyware, adware or any other illicit programs.
- j) Users will not attempt to ascertain private information about third parties without their knowledge and consent.
- k) Customers will not attempt to impersonate any person or entity, forge any persons or entities signatures, or perform any fraudulent activities.
- l) Users will comply with copyrights, trademarks and intellectual property rights of other people or entities.

- m) Users will not attempt to plagiarise, download, transmit or distribute content that infringes other peoples/entities intellectual property rights, trademarks or copyrights.
- n) Customers will not resell Lightwire's Internet Services, add accounts or share the Internet Services between more than one household without written permission from Lightwire.
- o) Lightwire's instructions, advertising, promotional and other material will remain Lightwire's copyright and unauthorised copying or distribution of this material is prohibited. As part of Lightwire's Internet Service we may use or display our partner companies' trademarks and copyrights. Lightwire acknowledges that these trademarks and copyrights remain the property of their owners. Although Lightwire has no obligation to monitor the Network and/or Internet Service, Lightwire, its partners and suppliers reserve the right at any time to monitor content, bandwidth, network usage and transmissions from time to time to operate the Internet Service; to identify violations of this Policy; and/or to protect the Network, Internet Service and other users.

9. Suspension or Disconnection of Internet Services

- 9.1. If the Customer exceeds its credit limit as set out in clause 7.3 Lightwire will be entitled to suspend the provision of its Internet Services to the Customer.
- 9.2. If the Customer does not meet all or any of its obligations under these Terms and Conditions Lightwire may suspend or disconnect the Customer from Lightwire's Network or discontinue any other services that Lightwire provides to the Customer.

- 9.5. In the event that the Customer is suspended or disconnected from Lightwire's Network for failing to meet any of its responsibilities under these Customer Terms, the Customer may be required to pay a recommencement fee before it can use Lightwire's Network again. All costs and expenses of or incurred by Lightwire as a result of suspension or disconnection by the Customer and any recommencement shall be payable by the Customer upon demand by Lightwire.
- 9.6. Normal charges, as outlined in Lightwire's price list, will continue to apply during the Customer's suspension or disconnection from Lightwire's Network.

These Customer Terms will apply subject to the provisions of the Consumer Protection Legislation.
- 10.2. **Business Customers:** If the Customer is not a Residential Customer (a Business Customer), then the Business Customer acknowledges and agrees that the provisions of the Consumer Guarantees Act 1993 and sections 9, 12A, and 13 of the Fair Trading Act 1986 will not apply to these Customer Terms and that it is fair and reasonable to exclude their application.
- 10.3. **Indemnity:** The Customer will indemnify Lightwire (including its Affiliates) against all liabilities, costs (including full costs between solicitor and client), losses, claims or demands incurred by Lightwire arising out of or incidental to any of the Internet Services or these Customer Terms. - 10.5. **Exclusion of all other Liability:** To the maximum extent permitted by law, Lightwire and its Affiliates will not be liable to the Customer for any loss of profit, loss of bargain, loss of business opportunity or exemplary damages or losses suffered by the Customer arising out of or flowing from any breach of contract, any pre-contractual misrepresentation or other dispute arising out of these terms and whether actionable in contract, tort (including negligence), equity or otherwise. For the avoidance of doubt, if Lightwire's Internet Services fail to operate for any reason and the Customer uses different services provided by another provider, Lightwire will not be responsible for that provider's charges. This exclusion of liability applies whether or not Lightwire's agreement with the Customer has ended and regardless of the type of damage the Customer suffers or howsoever it was caused.
- 10.6. **Copyright and related exclusions:** To the maximum extent permitted by law, the Customer agrees that Lightwire will not be liable for any:
